

Report on Osteopathic Medical School GME Placements in 2019 Matches

Graduates of the nation's osteopathic medical schools historically have had multiple opportunities for placement in graduate medical education. Doctor of Osteopathic Medicine (DO) graduates may participate in the American Osteopathic Association/National Matching Service (AOA/NMS) match for AOA accredited GME, the National Residency Matching Program (NRMP) match and Supplemental Offer and Acceptance Program (SOAP) for ACGME accredited GME, the military match (for those graduates with military service obligations), and other placements. Because of these multiple opportunities, the outcomes of GME placement for DO graduates are not known until several weeks after the formal matches. However with the development of the single GME accreditation system, opportunities in the AOA/NMS match are declining.

AACOM collected data from the individual COMs to determine the participation by and placement of 2019 graduates in GME. All COMs participated in data collection. Each college, branch campus, and additional location reported independently (except for Michigan State University COM and Philadelphia COM where all locations were combined for reporting). This report is based on data provided by the osteopathic medical schools on participation in and outcomes of all match pathways. Data are reported as of April 1, 2019.

Summary

Data reported by the COMs show that 98.48% of spring 2019 graduates seeking GME successfully placed in graduate medical education (as of April 1, 2019). (There may be additional placements however the number of remaining GME positions is limited.) This represents 6,482 new physicians beginning their graduate medical education in July 2019. This compares to 6,186 new physicians in 2018, 98.14% placement rate (updated from 2018 report) and 5,898 new physicians in 2017, 99.34% placement rate. The three-year increase in the number of graduates is accounted for by several COMs graduating their first classes and growth at existing COMs.

Thanks to staff at the COMs for responding to data requests to compile this report.

Key indicators of 2019 DO GME placement (and comparison to prior year data):¹

Indicator	2019	2018	2017
Anticipated number of graduates	6636	6350	5984
Number of graduates seeking GME (match percentages based on those seeking GME)	6582	6303	5937
Number of participants in the AOA match	1421	2287	2692
Percent of those seeking GME in AOA match	21.59%	36.28%	45.34%
Number of graduates matched in AOA match or post-match	896	1995	2525
Percent match/placed in AOA GME	13.61%	31.65%	42.53%
Number matched in military match	266	272	254
Percent matched in military match	4.04%	4.32%	4.28%
Number matched to other GME	39	41	47
Percent matched to other GME	0.59%	0.65%	0.79%
Number of participants in the NRMP match ²	5499	4320	3323
Percent of those seeking GME participating in the NRMP match	83.55%	68.54%	55.97%
Number matched in NRMP/SOAP	5281	3878	3072
Percent NRMP participants matched in NRMP/SOAP	96.04%	89.77%	92.45%
Percent of all participants matched in NRMP/SOAP	80.23%	61.53%	51.74%
Number matching/placing to any GME position	6482	6186	5898
Percent of all DO graduates seeking GME placing to position	98.48%	98.14%	99.34%

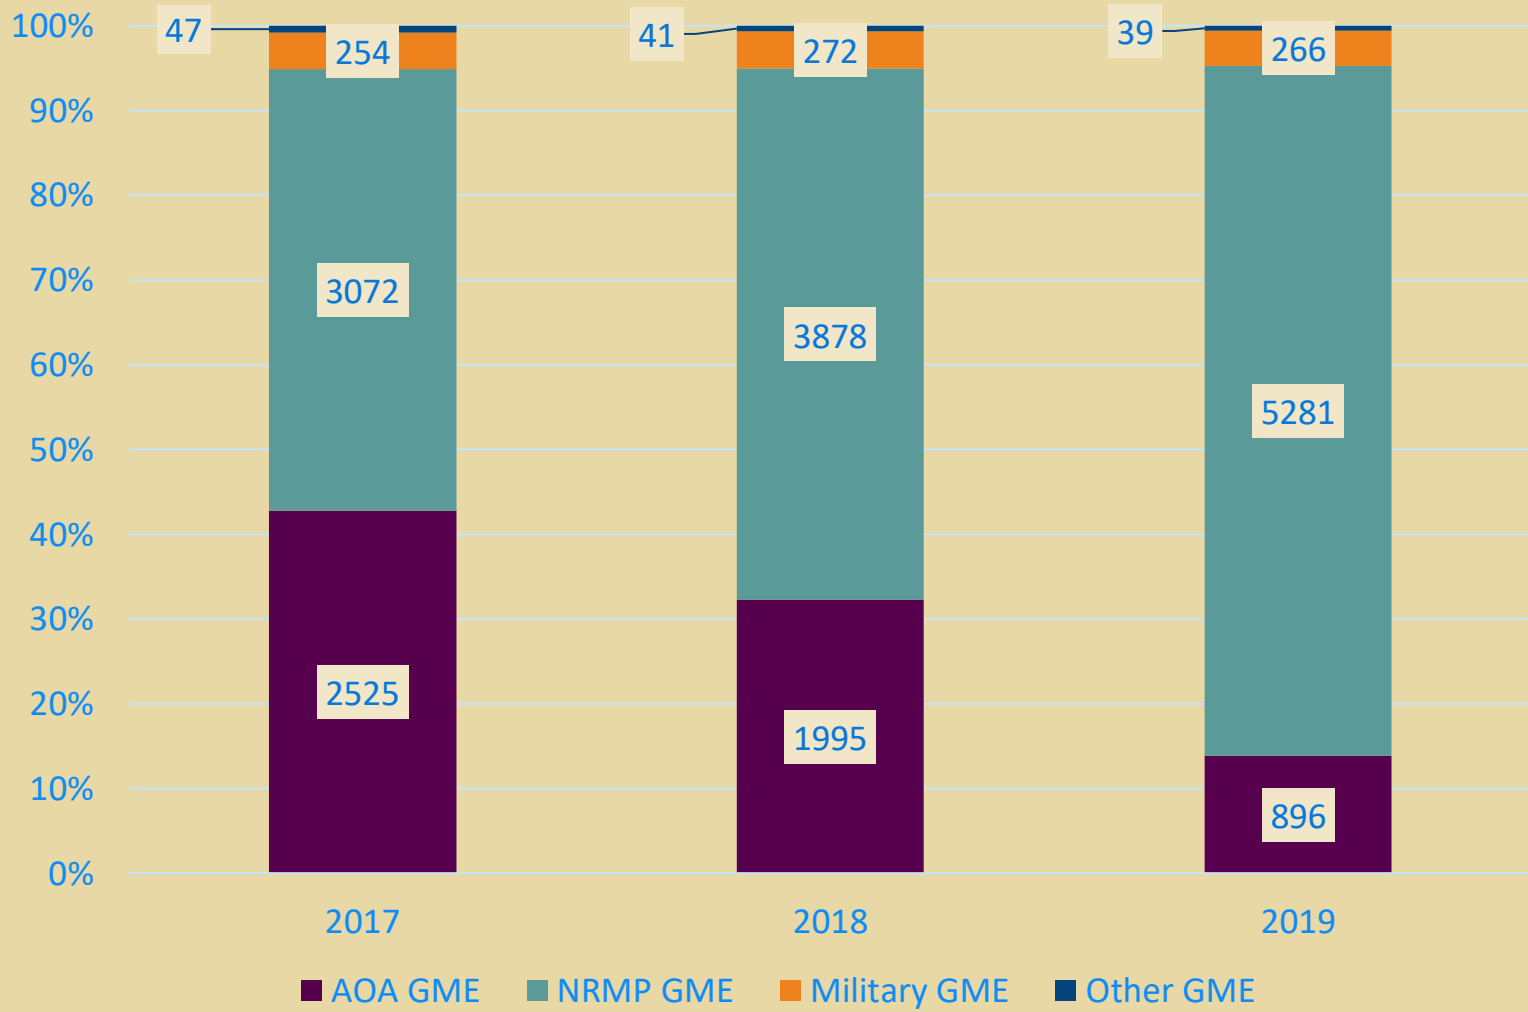

¹ Several COMs report data that is off by a few graduates so totals may not add accurately.

² The number of NRMP participants and matches includes only current graduates. NRMP reports for DO participants include prior year graduates so numbers will differ.

Combined DO Match Outcomes 2019, as of 4/1/2019

Historical GME Placement 2017-2019

Random COM number	Percent of seeking matched	Random COM number	Percent of seeking matched
8	100.00%	23	98.32%
