Total graduates include all students who received a DO degree from July 1st through June 30th. Race/ethnicity categories of this table reflect the most current Annual Osteopathic Medical School Questionnaire (Annual Survey). Underrepresented in Medicine (URiM) includes: Hispanic/Latino; American Indian/Alaska Native, non-Hispanic; Black/African American, non-Hispanic; and Pacific Islander, non-Hispanic. URiM percentages are calculated as of the academic year 2008-09. Prior to the academic year 2008-09, Asian, non-Hispanic and Pacific Islander, non-Hispanic were one designation; therefore, URiM percentages cannot be calculated. In 2007, AACOM conformed to the government standard of collecting Hispanic/Latino race/ethnicity demographics in two separate questions per the US Census Bureau. Additionally, prior to the academic year 2008-09, all students, including foreign students, were asked to self-designate race/ethnicity as one of the following races: White, Asian/Pacific Islander, Black/African American, Hispanic/Latino or Native American. Students who chose not to disclose these demographic data are categorized as Unknown. Starting in the academic year 2009-10, AACOM collected race/ethnicity data in line with the Department of Education's new reporting standards, which included categories for Nonresident Aliens, students with two or more races and distinct categories for Asian and Pacific Islander. Students with multiple race designations, two or more races and/or nonresident aliens did not designate a race/ethnicity.

Total graduates include all students who received a DO degree from July 1st through June 30th. Race/ethnicity categories of this table reflect the most current Annual Osteopathic Medical School Questionnaire (Annual Survey). Underrepresented in Medicine (URiM) includes: Hispanic/Latino; American Indian/Alaska Native, non-Hispanic; Black/African American, non-Hispanic; and Pacific Islander, non-Hispanic. URiM percentages are calculated as of the academic year 2008-09. Prior to the academic year 2008-09, Asian, non-Hispanic and Pacific Islander, non-Hispanic were one designation; therefore, URiM percentages cannot be calculated. In 2007, AACOM conformed to the government standard of collecting Hispanic/Latino race/ethnicity demographics in two separate questions per the US Census Bureau. Additionally, prior to the academic year 2008-09, all students, including foreign students, were asked to self-designate race/ethnicity as one of the following races: White, Asian/Pacific Islander, Black/African American, Hispanic/Latino or Native American. Students who chose not to disclose these demographic data are categorized as Unknown. Starting in the academic year 2009-10, AACOM collected race/ethnicity data in line with the Department of Education's new reporting standards, which included categories for Nonresident Aliens, students with two or more races and distinct categories for Asian and Pacific Islander. Students with multiple race designations, two or more races and/or nonresident aliens did not designate a race/ethnicity.

Total graduates include all students who received a DO degree from July 1st through June 30th. Race/ethnicity categories of this table reflect the most current Annual Osteopathic Medical School Questionnaire (Annual Survey). Underrepresented in Medicine (URiM) includes: Hispanic/Latino; American Indian/Alaska Native, non-Hispanic; Black/African American, non-Hispanic; and Pacific Islander, non-Hispanic. URiM percentages are calculated as of the academic year 2008-09. Prior to the academic year 2008-09, Asian, non-Hispanic and Pacific Islander, non-Hispanic were one designation; therefore, URiM percentages cannot be calculated. In 2007, AACOM conformed to the government standard of collecting Hispanic/Latino race/ethnicity demographics in two separate questions per the US Census Bureau. Additionally, prior to the academic year 2008-09, all students, including foreign students, were asked to self-designate race/ethnicity as one of the following races: White, Asian/Pacific Islander, Black/African American, Hispanic/Latino or Native American. Students who chose not to disclose these demographic data are categorized as Unknown. Starting in the academic year 2009-10, AACOM collected race/ethnicity data in line with the Department of Education's new reporting standards, which included categories for Nonresident Aliens, students with two or more races and distinct categories for Asian and Pacific Islander. Students with multiple race designations, two or more races and/or nonresident aliens did not designate a race/ethnicity.

Total graduates include all students who received a DO degree from July 1st through June 30th. Race/ethnicity categories of this table reflect the most current Annual Osteopathic Medical School Questionnaire (Annual Survey). Underrepresented in Medicine (URiM) includes: Hispanic/Latino; American Indian/Alaska Native, non-Hispanic; Black/African American, non-Hispanic; and Pacific Islander, non-Hispanic. URiM percentages are calculated as of the academic year 2008-09. Prior to the academic year 2008-09, Asian, non-Hispanic and Pacific Islander, non-Hispanic were one designation; therefore, URiM percentages cannot be calculated. In 2007, AACOM conformed to the government standard of collecting Hispanic/Latino race/ethnicity demographics in two separate questions per the US Census Bureau. Additionally, prior to the academic year 2008-09, all students, including foreign students, were asked to self-designate race/ethnicity as one of the following races: White, Asian/Pacific Islander, Black/African American, Hispanic/Latino or Native American. Students who chose not to disclose these demographic data are categorized as Unknown. Starting in the academic year 2009-10, AACOM collected race/ethnicity data in line with the Department of Education's new reporting standards, which included categories for Nonresident Aliens, students with two or more races and distinct categories for Asian and Pacific Islander. Students with multiple race designations, two or more races and/or nonresident aliens did not designate a race/ethnicity.
